494 EURO Support Addendum

EURO currency symbol support is available in 494 software releases V0390G and later. It allows the customer to select new keyboard codes when configuring the keyboard translation codes.

Configuration Instructions for EURO Support

In order to use one of the character sets with EURO support , follow the procedure for Configuring the Keyboard Translation from a twinaxial NWS or the 494 utility program in the User and Reference Guide. For EURO support the following keyboard codes are now available:

49	Austria/German EURO
4A	Belgium Multinational EURO
4B	Brazil EURO
4C	Canadian French Multinational EURO
4D	Denmark EURO
4E	France (AZERTY) EURO
4F	Finland EURO
50	Iceland EURO
51	Italy EURO
52	Netherlands EURO
53	Norway EURO
54	Portugal EURO
55	Swiss-French Multinational EURO
56	Swiss-German Multinational EURO
57	Spanish Speaking (Latin America) EURO
58	Spain EURO
59	Sweden EURO
5A	United Kingdom EURO
5B	USA/Canada EURO

Note: *None of these keyboard codes are available on the ASCII feature card (ID 42).*

AS/400 Requirements

You will also need to apply OS/400 level PTFs for EURO support. Please contact your AS/400 representative for more details.
