

IMPORTANT - IR or IRV Upgrade insert

Please read **before** you install this product

Dear customer,

Thank you for purchasing the Perle P840 router product. This product can be upgraded free of charge to the latest firmware at anytime. Simply download the appropriate code via the Perle web site –<http://www.perle.com>

If you have purchased either the P840-SH-IR or P840-SH-IRV products, you can request an additional key code to upgrade them with enhanced features.

This additional key code can be purchased from your supplier, or directly from Perle Systems. The advantage of installing the key code is that you will benefit from the following functionality:

- Unlimited number of users.
- IPX routing
- IP and IPX Spoofing

To purchase the key code, either contact your supplier or call Perle Systems on +1 905 946 5097. Please ensure you have your MAC address and serial number of the product when you call. You should receive your key code within 48 hours of your order.
